Not Many Store-Sales Are Uninfluenced by Store-Advertising!

The store-sales to-day that are uninfluenced, directly or indirectly, by store-advertising will not have amounted to ten per cent. of the total business of the day. In the latter case, as surely as in the first, the advertising must be credited with the

Observant merchants know that this is true. They should gain courage from the knowledge to strengthen their advertising campaigns to the point of matching their store-hopes and plans.

(Special from United Press.) Washington, May 13 .- A charge of bad faith on the part of the President and Attorney General Wickersham was made yesterday by Rep. Harrison, of New York, in withdrawing his resolution asking for the documents bearing on the Ballinger-Pinchot controversy which the investigating committee declined to call

Harrison's statements follow: "The Attorney General has now admitted the truth of the charge that his report, with its 'summary and conclusions' was written, not on September 11th, 1909, the day of its date,

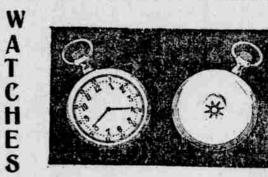

but weeks later. "This is one of "This is one of the most serious admissions ever made by a cabinet officer. This confession of the attorney general amounts to a conclusion that the President and Atorney General had agreed to furnish to the commission misleading datato supply an official document as of one date which was really prepared many weeks later-a document calculated to have a serious, if not con-

clusive inference on questions of the highest public importance. "The Attorney General offers startling lame excuse; I doubt whether the country will receive it with even respectful consideration. Harrison issued this statement in typewritten form and distributed it

to the press when he withdrew his resolution. Plans are under way for placing all the trunk telephone lines between Boston, New York, Philadelphia and Washington underground.
